PROSPECTUS 2026 – 2027

SAPACTI

SA Perfumery & Cosmetics Training Institution

S A P A C T I

Professional skills certificates in perfumery, cosmetics and wellness formulation

3 MONTHS · ONLINE · 2-WEEK INTENSIVE HANDS-ON

In partnership with SA Cosmetics and South African Perfumers Association

saperfumery.co.za · WhatsApp 063 096 1815 · info@saperfumery.co.za

WELCOME TO SAPACTI

Make it. Own it. Build your brand.

SAPACTI trains you to formulate professional-quality cosmetics, fragrances and wellness products, and to turn those skills into a business of your own.

150+	50+	10	3
students trained	brands built by former students	professional courses	months to your certificate

What you will be able to do

- ✓ Formulate your own products from scratch, not just follow recipes
- ✓ Make a full product range ready for retail
- ✓ Understand why every ingredient is in the formula
- ✓ Work safely and confidently in a professional lab
- ✓ Source from verified, vetted suppliers
- ✓ Cost, price, package and label for sale
- ✓ Launch a brand from home, with real products in hand
- ✓ Supply salons, spas, boutiques and online stores

Why train with us

Our trainers are industry specialists who run their own brands, so you learn what works in the real market, not only in the textbook. Since 2025, more than 150 students have trained with SAPACTI and over 50 brands have been built by former students.

Every course is three months. You learn online at your own pace, then spend the **final two weeks in an intensive hands-on practical**, making your products in our lab with your specialist beside you.

Who can register

Anyone with Grade 10 or higher. Beginners are welcome. Our students include aspiring entrepreneurs, salon owners, hobbyists and people starting a new trade. Skin Care, Nail Care and Skin Brightening recommend Mathematics or Physical Science, which is not required.

HOW EVERY COURSE WORKS

Three months. Two weeks that change everything.

MONTHS 1 TO 3
ONLINE CLASSES
Theory, visual lessons and assessments, at your own pace

FINAL 2 WEEKS
INTENSIVE
HANDS-ON

THE TWO-WEEK INTENSIVE HANDS-ON PRACTICAL

You finish the course by making every product yourself.

In the final two weeks you step into our working lab and formulate the products from all seven modules, guided by your specialist. You leave with finished products, real technique and the confidence to make them again.

Where: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

The journey, step by step

1. **Register and start immediately.** Your online classroom opens as soon as you register.
2. **Learn online for three months.** Watch the lessons, study the theory and complete your assessments as you go.
3. **Go hands-on for two intensive weeks.** Put on your white lab coat and make every product with your specialist beside you.
4. **Graduate with your certificate.** Receive your professional skills certificate and your finished products.
5. **Build your brand.** Buy from verified, vetted suppliers and take your range to market.

Intake schedule

Organic Hair Care Formulation is our first intake, with registration open from October. Each following course opens for registration when the previous course is one month from ending, and practicals are staggered two weeks apart so every group gets full attention in the lab.

INCLUDED IN EVERY COURSE FEE

Everything you need, from first lesson to first sale.

✓ **3 months of online classes** Theory, visual lessons and assessments	✓ **2-week intensive hands-on practical** In our lab, with your specialist beside you
✓ **Products to formulate with** All formulation products and lab materials for the practical	✓ **White lab coat and practical clothing** Yours to keep
✓ **Course books and manuals** Full formulation manuals and learning material	✓ **Verified, vetted suppliers** Access to suppliers we have checked, so you buy right from day one
✓ **Specialist support** Industry trainers who run their own brands	✓ **Professional skills certificate** Awarded when you complete all seven modules

VERIFIED, VETTED SUPPLIERS

Buy the right materials, from the right people.

Most new brands lose money on the wrong suppliers. Every SAPACTI student gets access to verified, vetted suppliers for raw materials, packaging and labels, so your first order is a good one.

Funding with no maximum cap

SAPACTI is a partner training provider with **Manati Alternate Student Funding**. There is no maximum funding cap and the application is easy. Our team prepares and submits your complete application for you, and keeps you updated until funding is confirmed.

Our partners

Manati Alternate Student Funding Student funding with no maximum cap.	**South African Perfumers Association** We train in partnership with the association that represents the fragrance community.	**SA Cosmetics** Our raw materials partner, supplying the ingredients you learn to work with.

HOW TO APPLY

Four easy steps

1 **Choose your certificate.** Pick a course from the pages that follow, then WhatsApp us on 063 096 1815 to confirm your place.

2 **Choose how you will pay.** Pay yourself: register for R600, start immediately and pay the balance in three instalments. Or apply for funding through Manati, with no maximum cap.

3 **Submit your proof of income (funding applicants only).**
Paying for yourself: 3 months' bank statements, a recent payslip and your ID.
Someone else is paying (parent, guardian or sponsor): their 3 months' bank statements, payslip (or proof of business income if self-employed) and their ID.

4 **Complete the student application form.** Add your details and documents. Our team submits your complete application to Manati and keeps you updated until funding is confirmed.

NEED A HAND?

We guide you through every step.

WhatsApp us on **063 096 1815** or email **info@saperfumery.co.za**.

OUR CERTIFICATE PROGRAMMES

Ten courses. One standard.

No.	Certificate	Format
01	**Certificate in Fragrance Arts** Professional Perfumery & Fragrance Formulation	3 months online + 2-week intensive hands-on

Every course runs for three months, with the final two weeks as an intensive hands-on practical at our training centre. Entry requirement: Grade 10.

CERTIFICATE PROGRAMME 01 OF 10

Certificate in Fragrance Arts

Professional Perfumery & Fragrance Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Learn to create fragrance that people remember, wear and buy.

The art and science of perfumery, taught by industry specialists who run their own brands. You move from fragrance families and raw materials to formulating eau de parfum, perfume oils, body mists, car perfumes, reed diffusers and room sprays, then finish by building your own scent library and business. One of the most profitable categories in South African cosmetics.

Ideal for: Anyone who wants to create and sell their own perfumes, car perfumes, diffusers and home fragrance products.

By the end, you will be able to

✓ Blend and balance a signature fragrance from top, heart and base notes

✓ Formulate eau de parfum, perfume oils, body mists and car perfumes

✓ Make reed diffusers, diffuser gels, room and linen sprays

✓ Build your own scent library and a first fragrance collection

✓ Cost, price and package every product for retail

✓ Launch and sell a fragrance brand from home

What you will learn: seven modules

1 **Eau de Parfum & Perfume Oils**
Formulate professional EDP, EDT and alcohol-free perfume oils. Understand notes, accords and maceration.

2 **Body Sprays & Body Mists**
Male and female body sprays and mists. Solubilisation, pH adjustment and preservation for water-based fragrance.

3 **Car Perfumes**
Vent clip oils, felt pad perfumes and car sprays. Heat-stable formulation for car interiors.

4 **Reed Diffusers & Diffuser Oils**
Reed and electric diffuser oils. Capillary action, DPG ratios and fragrance throw.

5 **Room, Home & Bathroom Sprays**
Luxury home, bathroom and linen sprays for retail and gifting.

6 **Diffuser Gels & Linen Sprays**
Home diffuser gels using carbomer and fragrance, and linen sprays safe for all fabrics.

7 **Fragrance Blending & Business**
Blending principles, building your scent library and building a fragrance business from home.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Eau de Parfum & Perfume Oils	Perfumers alcohol, fragrance compounds, DPG, UV stabiliser, bottles, spray pumps
2. Body Sprays & Body Mists	Distilled water, fragrance compounds, polysorbate 20, preservative system, spray bottles
3. Car Perfumes	DPG, fragrance compounds, felt pads, IPM, vent clips, spray bottles
4. Reed Diffusers & Diffuser Oils	DPG, IPM, fragrance oils, diffuser bottles, rattan reeds
5. Room, Home & Bathroom Sprays	Distilled water, IPA, fragrance compounds, spray bottles
6. Diffuser Gels & Linen Sprays	Carbomer, fragrance compounds, TEA, colorants, jars, bottles
7. Fragrance Blending & Business	Blending kit, testing strips, scent evaluation tools

More value built into this course

- ✓ Fragrance families and the olfactive pyramid
- ✓ Raw materials: fragrance compounds, oils and bases
- ✓ Costing and pricing every product for profit
- ✓ Labelling, packaging and presentation
- ✓ Selling to salons, boutiques, online stores and events

Where it can take you

- ✦ Sell your own perfume brand from home
- ✦ Supply salons, spas and boutiques
- ✦ Create wedding and event fragrance packages
- ✦ Corporate gifting fragrance sets
- ✦ List on Takealot, Makro and Amazon
- ✦ Supply funeral homes with memorial packages

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R10 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 02 OF 10

Certificate in Hair Care Science

Professional Organic Hair Care Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Formulate hair care that respects African and textured hair.

From scalp to tip. You formulate shampoos, hair foods, leave-in sprays, moisturisers, repair masks and scalp oils using natural and organic ingredients chosen for textured hair, and learn the chemistry that makes each one work. Organic hair care is one of the fastest-growing segments in South Africa.

Ideal for: Anyone who wants to create and sell their own organic hair care range for African and textured hair.

By the end, you will be able to

✓ Formulate shampoos for different hair and scalp types

✓ Make hair foods, moisturisers and leave-in conditioners that work

✓ Create repair masks, growth oils and scalp treatments

✓ Balance pH, protein and moisture in every formula

✓ Preserve and package products safely for sale

✓ Build and price a complete organic hair care range

What you will learn: seven modules

1 **Shampoos & Cleansing Products**
Shampoos for different hair types: moisturising, clarifying, growth and natural. Surfactant chemistry and pH balance.

2 **Cannabis & Hemp Hair Foods**
Nourishing hair foods with cannabis seed oil, hemp seed oil and herbal extracts, using the melt-and-whip method.

3 **Growth & Stimulating Hair Foods**
Rosemary, biotin and black castor hair foods. Incorporate actives at the correct temperatures.

4 **Hair Sprays & Leave-In Sprays**
Moisture, growth and heat-protect sprays. pH adjustment and preservation for water-based products.

5 **Moisturisers & Leave-In Conditioners**
BTMS-50 leave-in conditioners and cream moisturisers. Emulsification and conditioning chemistry.

6 **Protein & Repair Hair Masks**
Keratin repair and deep conditioning masks. Protein-moisture balance and the right pH.

7 **Hair Oils & Scalp Treatments**
Growth oils, lightweight moringa oils and black castor scalp oils. Anhydrous formulation and essential oil blending.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Shampoos & Cleansing Products	SLES, cocamidopropyl betaine, glycerin, preservative system, fragrance, bottles
2. Cannabis & Hemp Hair Foods	Cannabis seed oil, shea butter, beeswax, petrolatum, fragrance, jars
3. Growth & Stimulating Hair Foods	Castor oil, biotin, rosemary extract, peppermint EO, shea butter, beeswax, jars
4. Hair Sprays & Leave-In Sprays	Distilled water, aloe vera juice, glycerin, panthenol, polysorbate 20, spray bottles
5. Moisturisers & Leave-In Conditioners	BTMS-50, cetyl alcohol, shea butter, carrier oils, glycerin, pump bottles
6. Protein & Repair Hair Masks	BTMS-50, cetearyl alcohol, hydrolysed keratin and silk, panthenol, jars
7. Hair Oils & Scalp Treatments	Cannabis seed oil, moringa oil, castor oil, essential oils, vitamin E, dropper bottles

More value built into this course

- ✓ Hair and scalp science for textured hair
- ✓ Choosing natural oils, butters and extracts
- ✓ Troubleshooting separation, texture and shelf-life
- ✓ Costing, pricing and building a hair brand
- ✓ Selling to salons, boutiques and online stores

Where it can take you

- ✦ Supply hair salons wholesale
- ✦ Sell at markets and pop-ups
- ✦ Create a natural hair care brand
- ✦ Supply natural hair boutiques and health stores
- ✦ List on Takealot and Faithful to Nature
- ✦ Build a subscription box for natural hair

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R11 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 03 OF 10

Certificate in Body Care Science

Professional Body Care Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

The complete body care range, from a single certificate.

Our most comprehensive programme. You make whipped body butters, body oils, scrubs, bath salts, cold-process bar soap, shower gels and lotions, mastering melt-and-whip, emulsification and preservation along the way. It is a full foundation for a cosmetics brand.

Ideal for: Anyone who wants to create and sell a full body care range. The most comprehensive course in the SAPACTI lineup.

By the end, you will be able to

✓ Make whipped butters, body oils and scrubs to a professional finish

✓ Produce cold-process bar soap safely, from scratch

✓ Formulate shower gels, body washes and foam baths

✓ Create stable body lotions and creams using emulsification

✓ Preserve, package and label products for sale

✓ Assemble a full body care range and gift sets

What you will learn: seven modules

1 **Whipped Body Butters**
The melt, cool and whip method. Twenty variants from classic moisture to brightening and therapeutic.

2 **Body Oils**
Daily body oils, shimmer oils, therapeutic and brightening oils. Anhydrous formulation.

3 **Body Scrubs**
Sugar, salt and coffee scrubs. Exfoliant selection, preservation and packaging.

4 **Bath Salts & Bath Soaks**
Kala namak bath salts, Epsom soaks and herbal bath teas. Mineral ingredient blending.

5 **Bar Soaps: Cold Process**
Cold process soap from scratch: saponification, lye safety, cure time and natural colourants.

6 **Shower Gels, Foam Bath & Body Wash**
Surfactant-based cleansers. Balance cleansing, foaming and conditioning.

7 **Body Lotion & Body Cream**
Professional lotions and creams using emulsification. Oil-water systems and preservation.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Whipped Body Butters	Shea, mango and cocoa butters, carrier oils, arrowroot, actives, jars
2. Body Oils	Carrier oils, vitamin E, essential oils, micas, dropper and pump bottles
3. Body Scrubs	Sugar, salt, carrier oils, fragrance, actives, jars
4. Bath Salts & Bath Soaks	Kala namak, Epsom salts, dead sea salt, essential oils, dried botanicals
5. Bar Soaps: Cold Process	Lye (NaOH), carrier oils, butters, essential oils, colorants, moulds, safety kit
6. Shower Gels, Foam Bath & Body Wash	SLES, cocamidopropyl betaine, glycerin, fragrance, preservative, pump bottles
7. Body Lotion & Body Cream	Emulsifying wax, carrier oils, glycerin, preservative, pump bottles, tubes

More value built into this course

- ✓ Emulsions explained: how lotions and creams hold together
- ✓ Safe working practice in the lab
- ✓ Fragrancing body care products
- ✓ Gift-set design, packaging and labelling
- ✓ Costing, pricing and selling a full range

Where it can take you

- ✦ Build a complete body care brand from one course
- ✦ Supply spas and wellness centres
- ✦ Sell gift sets at markets and online
- ✦ Apply to Makro, Takealot and Dis-Chem
- ✦ Create seasonal limited edition collections
- ✦ Supply salons with retail body care products

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R12 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 04 OF 10

Certificate in Skin Care Science

Professional Skin Care Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Master the most technical and most profitable category in cosmetics.

You formulate face washes, vitamin C, hyaluronic and niacinamide serums, SPF day creams, retinol night creams, eye treatments, masks and hand creams using proven actives, and understand why they work, how they stay stable and how to preserve them.

Ideal for: Anyone who wants to create and sell professional skin care products. Maths or Physical Science is recommended, not required.

By the end, you will be able to

- ✓ Formulate cleansers, serums, creams and masks with confidence
- ✓ Work with actives at the right concentration and pH
- ✓ Make SPF day creams and retinol night creams
- ✓ Create eye treatments and barrier repair products
- ✓ Keep every formula stable and properly preserved
- ✓ Build a skin care range with a clear brand story

What you will learn: seven modules

1. **Face Washes & Cleansers**
   Gentle foaming face washes and micellar cleansers. Surfactant selection and pH adjustment.
2. **Facial Serums**
   Vitamin C, hyaluronic acid and niacinamide serums. Active stability and water-based serum formulation.
3. **Day Creams with SPF**
   Daytime moisturisers with UV protection. Emulsification and sunscreen active incorporation.
4. **Night Creams & Repair Treatments**
   Rich night creams with retinol, peptides and regenerating actives.
5. **Eye Creams & Targeted Treatments**
   Delicate eye creams and spot treatments for sensitive areas of the face.
6. **Facial Masks & Exfoliants**
   Clay masks and chemical exfoliants. Mask bases and AHA/BHA use.
7. **Hand Creams & Barrier Repair**
   Intensive hand creams and barrier repair treatments for dry, damaged skin.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Face Washes & Cleansers	Gentle surfactants, glycerin, aloe vera juice, preservative, pump bottles
2. Facial Serums	Hyaluronic acid, vitamin C, niacinamide, glycerin, preservative, dropper bottles
3. Day Creams with SPF	Emulsifying wax, zinc oxide, carrier oils, glycerin, actives, pump bottles
4. Night Creams & Repair Treatments	Shea butter, retinol, peptides, rosehip oil, vitamin E, pump jars
5. Eye Creams & Targeted Treatments	Lightweight emollients, caffeine, peptides, vitamin K, small pump jars
6. Facial Masks & Exfoliants	Kaolin clay, AHAs, BHAs, aloe vera juice, actives, mask packaging
7. Hand Creams & Barrier Repair	Shea butter, glycerin, urea, allantoin, ceramides, tubes

More value built into this course

- ✓ Skin structure, skin types and common concerns
- ✓ Understanding active ingredients and their limits
- ✓ pH, stability and preservation made simple
- ✓ Testing and troubleshooting your formulas
- ✓ Positioning and launching a skin care brand

Where it can take you

- ✦ Create a complete professional skin care brand
- ✦ Supply dermatology practices and beauty clinics
- ✦ Apply to Clicks, Dis-Chem and Woolworths
- ✦ Build an online skin care brand
- ✦ Supply spas with professional treatment products
- ✦ Offer personalised skin care consultations

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R11 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 05 OF 10

Certificate in Lip Care Science

Professional Lip Care & Colour Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

The fastest route to a finished product line.

Lip care is one of the easiest categories to start and one of the most profitable per unit. You formulate lip scrubs, balms, tinted balms, glosses, matte liquid lipsticks, bullet lipsticks, liners and treatments, including pigment work and lipstick moulding.

Ideal for: Anyone who wants to create and sell lip care and lip colour products. One of the easiest categories to start with.

By the end, you will be able to

- ✓ Make lip scrubs, balms and tinted balms to a professional finish
- ✓ Formulate glosses and matte liquid lipsticks
- ✓ Mould classic bullet lipsticks in cream, satin and shimmer
- ✓ Work with cosmetic pigments and match colours
- ✓ Create liners and therapeutic lip treatments
- ✓ Package and sell your own lip collection

What you will learn: seven modules

1. **Lip Scrubs**
   Sugar-based lip scrubs in multiple flavours. Lip-safe ingredient selection and packaging.
2. **Lip Balms**
   Classic beeswax, vegan and SPF medicated lip balms.
3. **Tinted Lip Balms**
   Balms with colour using cosmetic-grade pigments. Pigment dispersion in wax.
4. **Lip Glosses**
   Non-sticky, high-shine glosses in clear and tinted finishes.
5. **Matte Liquid Lipsticks**
   Long-wearing matte liquid lipsticks. Pigment loading and matte agents.
6. **Classic Bullet Lipsticks**
   Cream, satin and shimmer bullet lipsticks. Lipstick moulding technique.
7. **Lip Liner & Lip Treatments**
   Lip liners and therapeutic treatments for dry and ageing lips.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Lip Scrubs	Sugar, honey, carrier oils, flavour oils, vitamin E, small jars
2. Lip Balms	Beeswax or candelilla wax, shea butter, carrier oils, flavour oils, tubes and pots
3. Tinted Lip Balms	Beeswax, shea butter, cosmetic pigments, flavour oils, tubes
4. Lip Glosses	Polybutene, castor oil, vitamin E, pigments, mica, wand bottles
5. Matte Liquid Lipsticks	Isododecane, wax, pigments, silica, matte agent, wand bottles
6. Classic Bullet Lipsticks	Castor oil, beeswax, carnauba wax, pigments, mica, moulds and cases
7. Lip Liner & Lip Treatments	Wax blend, pigments, vitamin E, hyaluronic acid, liner cases

More value built into this course

- ✓ Waxes, oils and butters used in lip products
- ✓ Colour theory and shade creation
- ✓ Flavouring and fragrancing lip products
- ✓ Filling, moulding and finishing
- ✓ Pricing, packaging and selling your range

Where it can take you

- ✦ Start a lip care brand with minimal investment
- ✦ Sell at markets, pop-ups and online
- ✦ Supply clothing boutiques and gift shops
- ✦ Create personalised lip colour collections
- ✦ Supply bridal parties with custom lip glosses
- ✦ Build a lip care subscription box

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R9 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 06 OF 10

Certificate in Candle Making

Professional Candle & Wax Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Craft candles to a professional standard.

Candle making is one of the most accessible home-based businesses, and technique is what separates a hobby from a brand. You pour jar, pillar, tealight, spa, massage, lotion and celebration candles, mastering wax choice, fragrance loading, wicking and finishing.

Ideal for: Anyone who wants to create and sell candles professionally, from home lifestyle candles to massage, lotion and ceremony candles.

By the end, you will be able to

- ✓ Choose the right wax, wick and fragrance load for every candle
- ✓ Pour jar, pillar and tealight candles cleanly
- ✓ Make spa, massage and lotion candles
- ✓ Solve tunnelling, frosting and sinking
- ✓ Finish, package and label candles for gifting
- ✓ Build a candle range and sell it

What you will learn: seven modules

1. **Home & Lifestyle Jar Candles**
   Soy wax container candles: fragrance loading, wick selection, pouring technique and finishing.
2. **Pillar & Ceremony Candles**
   Freestanding pillar candles: moulding, stearic acid use and unmoulding.
3. **Tealights & Votives**
   Professional tealights and votives for gifting and events.
4. **Spa & Aromatherapy Candles**
   Clean-burning coconut-soy candles with essential oils for the spa and wellness market.
5. **Massage Candles**
   Skin-safe candles that melt to warm massage oil. Melt-point testing and skin safety.
6. **Lotion Candles**
   Candles that melt into a rich, moisturising lotion. The unique wax and emollient blend.
7. **Celebration & Gift Candles**
   Sweet and festive candles for gifting, with gift packaging and presentation.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Home & Lifestyle Jar Candles	Soy wax, fragrance oils, cotton wicks, dye, UV stabiliser, glass jars
2. Pillar & Ceremony Candles	Paraffin pillar wax, stearic acid, fragrance oils, moulds, wicks
3. Tealights & Votives	Paraffin tealight wax, pre-tabbed wicks, fragrance oils, aluminium cups
4. Spa & Aromatherapy Candles	Coconut wax, soy wax, essential oils, fragrance oils, luxury jars
5. Massage Candles	Soy wax, shea butter, carrier oils, essential oils, vitamin E, wide-mouth containers
6. Lotion Candles	Soy wax, emollients, carrier oils, fragrance, wide-mouth jars
7. Celebration & Gift Candles	Paraffin-soy blend, fragrance oils, dyes, gift jars and boxes

More value built into this course

- ✓ Wax types and when to use each
- ✓ Wicking and burn testing
- ✓ Curing, scent throw and troubleshooting
- ✓ Safety and labelling
- ✓ Pricing and selling your candle range

Where it can take you

- ✦ Supply wedding and event planners
- ✦ Create a candle gifting brand
- ✦ Supply funeral homes with memorial candle packages
- ✦ Sell spa candles to salons and spas
- ✦ Run candle making workshops
- ✦ Supply corporate gifting with branded candles

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R10 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 07 OF 10

Certificate in Nail Care Science

Professional Nail Care & Polish Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Learn the chemistry most formulators never touch.

Nail polish is industrial chemistry, and few formulators ever learn it. You formulate base coats, top coats, cream, shimmer, metallic and effect colours, treatments, cuticle oils and removers, and handle solvents safely. It is a genuine competitive advantage in the nail market.

Ideal for: Anyone who wants to create and sell professional nail polish, nail treatments and nail care products. Maths or Physical Science is recommended, not required.

By the end, you will be able to

- ✓ Formulate base coats and high-gloss top coats
- ✓ Create cream, shimmer, metallic and effect colours
- ✓ Make strengtheners and growth treatments
- ✓ Blend nourishing cuticle oils
- ✓ Formulate acetone and acetone-free removers
- ✓ Handle solvents safely and launch your own nail range

What you will learn: seven modules

1. **Base Coat Formulation**
   Base coats with strengthening actives. Nitrocellulose chemistry and solvent handling safety.
2. **Top Coat & High Gloss**
   High-gloss top coats with UV protection and levelling agents.
3. **Creams & Shimmers**
   Cream and shimmer polish colours. Pigment predispersion and colour development.
4. **Metallics & Special Effects**
   Metallic, glitter, holographic and colour-change polishes.
5. **Nail Treatments**
   Strengthening treatments, ridge fillers, anti-fungal and biotin growth treatments.
6. **Cuticle Oils**
   Nourishing cuticle oils with carrier oils, essential oils and actives.
7. **Nail Polish Removers**
   Acetone, acetone-free and gel soak-off removers with conditioning agents.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Base Coat Formulation	Ethyl acetate, butyl acetate, nitrocellulose, resin, ATBC, nail bottles
2. Top Coat & High Gloss	Ethyl and butyl acetate, nitrocellulose, dimethicone, benzophenone, bottles
3. Creams & Shimmers	Polish base, cosmetic pigments, micas, ten colour bottles
4. Metallics & Special Effects	Polish base, metallic micas, glitter, effect pigments, bottles
5. Nail Treatments	Treatment actives, hydrolysed keratin, biotin, undecylenic acid, bottles
6. Cuticle Oils	Carrier oils, essential oils, vitamin E, CO2 extracts, dropper bottles
7. Nail Polish Removers	Acetone, ethyl acetate, glycerin, panthenol, pump bottles

More value built into this course

- ✓ Nail structure and common nail concerns
- ✓ Viscosity, stability and troubleshooting polish
- ✓ Safe handling of solvents in the lab
- ✓ Colour range planning
- ✓ Packaging, labelling and building a nail brand

Where it can take you

- ✦ Supply nail salons with professional nail care products
- ✦ Create your own nail polish colour collection
- ✦ Sell nail care gift sets
- ✦ Supply beauty schools with nail care products
- ✦ Apply to Clicks and Dis-Chem with your nail range
- ✦ Create a nail care subscription box

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R11 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 08 OF 10

Certificate in Herbal Wellness

Professional Herbal Wellness & Tea Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Blend teas with knowledge, not guesswork.

You source, blend and package moringa, ashwagandha, rooibos, hibiscus, detox, sleep and immunity teas using locally sourced and internationally recognised botanicals. The wellness market is growing in South Africa and globally, and it rewards those who understand what they are blending.

Ideal for: Anyone who wants to create and sell herbal teas, wellness blends and natural health products.

By the end, you will be able to

- ✓ Source and grade quality botanicals
- ✓ Blend balanced, flavourful wellness teas
- ✓ Create moringa, ashwagandha and rooibos blends
- ✓ Make sleep, detox and immunity blends
- ✓ Package, label and present teas for sale
- ✓ Build and sell your own tea brand

What you will learn: seven modules

1. **Moringa Wellness Teas**
   Source, blend and package moringa teas. Nutrition, quality grading and dosage.
2. **Ashwagandha Blends**
   Adaptogenic tea blends. Blending ratios and complementary herbs.
3. **Rooibos Wellness Blends**
   Premium rooibos blends with functional ingredients. South African rooibos grading.
4. **Hibiscus & Floral Teas**
   Hibiscus and floral wellness blends. Colour extraction and flavour balancing.
5. **Detox & Cleansing Blends**
   Dandelion, ginger, lemongrass and cleansing herbs.
6. **Sleep & Relaxation Teas**
   Calming blends with chamomile, valerian, lavender and passionflower.
7. **Immunity & Energy Blends**
   Immunity-boosting and energy-supporting herbal blends.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Moringa Wellness Teas	Dried moringa leaf, bags, labels, heat sealer
2. Ashwagandha Blends	Ashwagandha root, complementary herbs, packaging
3. Rooibos Wellness Blends	Red and green rooibos, functional botanicals, packaging
4. Hibiscus & Floral Teas	Dried hibiscus flowers, botanicals, packaging
5. Detox & Cleansing Blends	Detox herbs, ginger, lemongrass, packaging
6. Sleep & Relaxation Teas	Chamomile, lavender, passionflower, valerian, packaging
7. Immunity & Energy Blends	Immunity herbs, green tea, ginger, turmeric, packaging

More value built into this course

- ✓ Herb identification, sourcing and quality
- ✓ Drying, storing and preserving herbs
- ✓ Flavour balancing and blend ratios
- ✓ Responsible wellness claims and labelling
- ✓ Branding, packaging and selling your tea range

Where it can take you

- ✦ Sell wellness teas at health markets and online
- ✦ Supply health stores and pharmacies
- ✦ Create a wellness tea subscription box
- ✦ Supply spas with herbal tea menus
- ✦ Create corporate wellness gifting sets
- ✦ List on Faithful to Nature and Takealot

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R8 900. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 09 OF 10

Certificate in Oral Care Science

Professional Oral Care Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Natural oral care for a market moving toward fluoride-free.

You formulate natural toothpaste, charcoal tooth powder, alcohol-free mouthwash, whitening products, oil pulling blends and breath fresheners, learning safe active selection and concentration limits along the way.

Ideal for: Anyone who wants to create and sell natural oral care products: toothpaste, mouthwash, teeth whitening and breath fresheners.

By the end, you will be able to

- ✓ Formulate natural toothpaste and tooth powder
- ✓ Make alcohol-free and herbal mouthwashes
- ✓ Create whitening gels using safe actives
- ✓ Blend oil pulling mixes and breath fresheners
- ✓ Keep oral care products stable and safe
- ✓ Package and sell your own oral care range

What you will learn: seven modules

1. **Natural Toothpaste**
   Toothpaste with calcium carbonate, bentonite clay and natural actives.
2. **Charcoal Toothpaste & Tooth Powder**
   Activated charcoal blends. Charcoal dispersion and whitening formulation.
3. **Natural Mouthwash**
   Alcohol-free and herbal mouthwashes. Antimicrobial actives and flavour masking.
4. **Teeth Whitening Products**
   Natural whitening gels. Safe active selection and concentration limits.
5. **Oil Pulling Blends**
   Coconut oil and therapeutic essential oil blends.
6. **Natural Breath Fresheners**
   Tongue sprays, breath sprays and natural breath mints.
7. **Lip Balm with SPF & Oral Skin Care**
   Protective SPF lip balms and treatments for chapped lips.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Natural Toothpaste	Calcium carbonate, bentonite clay, coconut oil, xylitol, peppermint EO, tubes
2. Charcoal Toothpaste & Tooth Powder	Activated charcoal, calcium carbonate, coconut oil, essential oils, tubes, jars
3. Natural Mouthwash	Distilled water, essential oils, xylitol, aloe vera juice, preservative, bottles
4. Teeth Whitening Products	Whitening actives, gels, whitening trays
5. Oil Pulling Blends	Coconut oil, essential oils, sachets and bottles
6. Natural Breath Fresheners	Peppermint EO, spearmint EO, aloe vera juice, spray bottles
7. Lip Balm with SPF & Oral Skin Care	Beeswax, zinc oxide, shea butter, carrier oils, tubes

More value built into this course

- ✓ How oral care products work
- ✓ Flavours and sweeteners
- ✓ Stability and preservation
- ✓ Safety and responsible production
- ✓ Packaging, labelling and launching your brand

Where it can take you

- ✦ Create a complete natural oral care brand
- ✦ Supply health stores and pharmacies
- ✦ Target the fluoride-free natural market
- ✦ Supply dental practices with natural products
- ✦ List on Faithful to Nature and health platforms
- ✦ Create oral care gifting sets

Included in your course fee

3 months of online classes (theory, visual lessons, assessments) · 2-week intensive hands-on practical · products to formulate with · white lab coat and practical clothing · course books · access to verified, vetted suppliers · professional skills certificate.

Course fee: R9 500. Register for R600, start immediately and pay the balance in three instalments. Funding available with no maximum cap. Apply on WhatsApp 063 096 1815.

CERTIFICATE PROGRAMME 10 OF 10

Certificate in Skin Brightening Science

Professional Skin Brightening & Lightening Formulation

DURATION	HANDS-ON	WHO CAN REGISTER
3 months, online classes	**Final 2 weeks: intensive practical**	Grade 10. Beginners welcome.

Brighten skin safely, legally and effectively.

One of the most in-demand categories in South Africa and across Africa, and one that has to be done right. You formulate brightening serums, body lotions, dark spot correctors, face creams, body butters, masks and soaps using only safe, legally compliant actives.

Ideal for: Anyone who wants to create and sell brightening and hyperpigmentation products using safe, legal and proven actives. Maths or Physical Science is recommended, not required.

By the end, you will be able to

- ✓ Formulate brightening serums, lotions and creams
- ✓ Create dark spot correctors with proven actives
- ✓ Make brightening body butters, oils and soaps
- ✓ Work only with safe, legally compliant ingredients
- ✓ Test and stabilise every formula
- ✓ Launch a responsible brightening range

What you will learn: seven modules

1. **Brightening Face Serums**
   Vitamin C, niacinamide and alpha arbutin serums for dark spot correction.
2. **Brightening Body Lotions**
   Full-body lotions with kojic acid, niacinamide and vitamin C.
3. **Dark Spot Correctors**
   Targeted correctors with alpha arbutin, tranexamic acid and licorice extract.
4. **Brightening Face Creams**
   Day and night creams with glutathione, kojic acid and vitamin C.
5. **Brightening Body Butters & Oils**
   Body butters and oils with oil-soluble vitamin C and turmeric.
6. **Even Tone Face Masks**
   Clay masks and sheet mask essences for professional treatment use.
7. **Brightening Soaps & Cleansers**
   Brightening bar soaps and face washes with kojic acid and vitamin C.

THE FINAL TWO WEEKS

Two-week intensive hands-on practical

After your online classes you step into our lab and make every product from the seven modules, guided by your specialist, wearing your white lab coat. Training centre: Lepharo Incubation Centre, 14 Mammogale Drive, Musieville, Mogale City.

What you will make in the lab

Product / module	Materials you work with
1. Brightening Face Serums	Vitamin C, niacinamide, hyaluronic acid, preservative, serum bottles
2. Brightening Body Lotions	Emulsifying wax, kojic acid, niacinamide, carrier oils, preservative, pump bottles
3. Dark Spot Correctors	Alpha arbutin, tranexamic acid, licorice extract, serum base, applicators
4. Brightening Face Creams	Glutathione, kojic acid, vitamin C, emulsifying wax, carrier oils, jars
5. Brightening Body Butters & Oils	Shea butter, oil-soluble vitamin C, niacinamide, turmeric CO2, carrier oils, jars
6. Even Tone Face Masks	Kaolin clay, brightening actives, aloe vera juice, mask packaging
7. Brightening Soaps & Cleansers	Soap base, kojic acid, vitamin C, fragrance, moulds, bottles

More value built into this course

- ✓ How skin colour and pigmentation work
- ✓ Ingredients to avoid and why
- ✓ Sun protection awareness
- ✓ Testing, stability and troubleshooting
- ✓ Responsible claims, labelling and branding

Where it can take you

- ✦ One of the most profitable niches in South Africa
- ✦ Supply skin care clinics and beauty therapists
- ✦ Build an online brightening brand
- ✦ Apply to Clicks and Dis-Chem
- ✦ Supply salons with professional brightening treatments
- ✦ Create complete brightening regimen sets for retail

Included in your course fee
