

African Hair Care Products Formulation Course guide

Learn the art of creating nourishing, natural hair care products tailored to the unique needs of African hair. This online, self-paced course covers the formulation of sprays, moisturizers, hair masks, and hair washes, using organic and natural ingredients.

Course Covers

- Understanding African hair types and concerns (dryness, breakage, dandruff, etc.)
- Formulating sprays for moisture, definition, and protection
- Creating moisturizers for hydration, nourishment, and softness
- Developing hair masks for repair, restoration, and rejuvenation
- Crafting hair washes for gentle cleansing and balancing
- Using natural ingredients, such as shea butter, coconut oil, argan oil, and African black soap

What learn

- Creating deep conditioning hair masks
- Blending natural hair oils
- Formulating rich hair moisturizers
- Creating natural hair sprays
- Making nourishing hair food treatments
- Customizing hair care products for different hair types
- Using natural ingredients for African hair care

Products You'll Learn to Create:

- Hair Masks
- Hair Oils
- Hair Moisturizers
- Hair Sprays
- Hair Food

What You Get

- Certificate of Completion upon finishing the course
- Starter Kit with ingredients, equipment, and materials to get you started on your formulation journey
- Access to course materials and resources online

Course Fee

- R6000 (includes course materials, starter kit, and certificate)

Duration

- 5 days (self-paced, online)

Who Should Attend

- Hair care enthusiasts and professionals
- Natural product formulators and entrepreneurs
- Salon owners and stylists
- Anyone passionate about creating organic, sustainable hair care products for African hair
